1. Links to other policies

The RSHE policy links to the Wellness Curriculum which has been developed by the Aspirations Trust to help promote positive mental health and emotional well-being in our pupils and to teach our pupils' self-responsibility for their behaviour and their lifestyle choices.

The Safeguarding and CP Policy is also relevant to this policy.

2. Aims

The aims of relationships, sex and health education (RSHE) at our school are to:

- Develop 21st century skills and attributes such as resilience, self-esteem, risk-management, teamworking and critical thinking
- Provide young people with reliable information so they can make informed decisions about their health and bodies
- Provide a framework in which sensitive discussions can take place
- Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Help pupils develop feelings of self-respect, confidence and empathy
- Create a positive culture around issues of sexuality and relationships
- Teach pupils the correct vocabulary to describe themselves and their bodies
- Deal with misconceptions, myths and misunderstandings
- To safeguard pupils

3. Definition

RSHE stands for Relationship, Sex and Health Education. It is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity in a safe environment where pupils can discuss their thoughts and receive age appropriate reliable guidance. RSHE involves a combination of sharing information, and exploring issues and values. RSHE is **not** about the promotion of sexual activity, indeed evidence shows that the provision of well taught, effective RSHE reduces the likelihood of young people engaging in risky behaviours.

4. Statutory requirements

Primary Academy:

The Relationships Education, RSE, and Health Education (England) Regulations 2019 have made Relationships Education compulsory in all primary schools. Sex Education is not compulsory in primary schools and the content set out in this guidance therefore focuses on Relationships Education. (DfE RSE Guidance, 2019).

As a primary academy we must provide relationships education to all pupils as per section 34 of the Children and Social Work Act 2017.

However, we are not required to provide sex education but we do need to teach the elements of sex education contained in the science curriculum.

In teaching RSHE, we must have regard to guidance issued by the Secretary of State as outlined in section 403 of the Education Act 1996.

Secondary Academy

As a secondary academy we must provide RSE to all pupils as per section 34 of the Children and Social work act 2017.

In teaching RSE, we are required by our funding agreements to have regard to guidance issued by the secretary of state as outlined in section 403 of the Education Act 1996.

At our Academy we teach RSHE as set out in this policy.

5. Policy development

This policy has been developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

1. Review – Wellness lead pulled together all relevant information including relevant national and local guidance
2. Staff consultation – all school staff were given the opportunity to look at the policy and make recommendations
3. Parent/stakeholder consultation – parents and any interested parties were invited to attend a meeting about the policy
4. Pupil consultation – we investigated what exactly pupils want and need from their RSHE
5. Ratification – once amendments were made, the policy was shared with governors and ratified

6. Curriculum

Our curriculum is set out as per Appendix 1 but we may need to adapt it as and when necessary.

We have developed the curriculum in consultation with parents, pupils and staff, taking into account the age, needs and feelings of pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an appropriate manner so that pupils are fully informed and don't seek answers online.

For more information about our curriculum, see our curriculum map in Appendix 1.

7. Delivery of RSHE

RSHE is taught within the personal, social, health and economic (PSHE) education curriculum as well as through Deep Learning Days. Biological aspects of RSHE are taught within the science curriculum, and other aspects are included in religious education (RE) / Liberal Arts which is taught during PSHE lessons and Deep Learning Days.

The RSHE lessons in our Secondary Phase will be taught by a member of our senior team and DDSL who holds both the subject knowledge and contextualised safeguarding information to maximise the relevance of these key topic areas. In addition to this we will occasionally invite external agencies such as school nurses or youth workers to deliver sessions.

RSHE focuses on giving young people the information they need to help them develop healthy, nurturing relationships of all kinds including:

- Families
- Respectful relationships, including friendships
- Online and media
- Being safe
- Intimate and sexual relationships, including sexual health

For more information about our RSHE curriculum, see Appendices 1 and 2.

These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

The delivery of RSHE will be monitored just like any other subject, for example through:

- Learning Walks
- Book Scrutiny
- Data Analysis
- Pupil Voice
- Staff Consultations
- Ongoing CPD

Pupils' development in RSHE is monitored by class teachers termly through summative data. Pupils should be given feedback on their progress and be able to articulate their understanding of key aspects of the curriculum.

8. Inclusion

All pupils have a right to age appropriate RSHE regardless of faith, gender, sexual orientation, race or disability. High quality teaching that is differentiated and personalised is the starting point to ensure accessibility for all of our pupils.

The Equality Act of 2010 protects children, young people and adults against discrimination, harassment and victimisation in relation to education.

Wellness Leads as well as the Safeguarding Leads both have a duty of care to ensure that all staff delivering RSHE are familiar with the Safeguarding Policy and understand the necessary protocol should a safeguarding issue arise. Furthermore, the backgrounds of all pupils are taken into account when planning and teaching, so that the topics are sensitive to the needs of our pupils and families.

9. Roles and responsibilities

9.1 Governance

The Board of Trustees for Aspirations delegates responsibility to local Regional Boards (RB). The RB will approve the Wellness Curriculum and the RSHE Policy. This policy will be reviewed by the PSHE Lead annually. At every review, the policy will be approved by the RB.

9.2 The Principal

The principal is responsible for ensuring that RSHE is taught consistently across the school, and for managing requests to withdraw pupils from non statutory components of RSHE (see section 10).

9.3 Staff

Staff are responsible for:

- Delivering RSHE in a sensitive way
- Modelling positive attitudes to RSHE

- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non statutory components of RSHE

It is important that RSHE is taught by staff trained and eager to teach RSHE just like any other subject. If staff have concerns about teaching RSHE they should speak to their line manager, but it is an expectation that all staff will promote the values and ethos of the curriculum.

9.4 Pupils

Pupils are expected to engage fully in RSHE and, when discussing issues related to RSHE, treat others with respect and sensitivity.

10. Parents' right to withdraw

Parents have the right to withdraw their children from the non-statutory components of sex education within RSE up to and until 3 terms before the child turns 16. After this point, if the child wishes to receive sex education rather than being withdrawn, the Academy will arrange this.

Requests for withdrawal should be put in writing using the form found in Appendix 3 of this policy and addressed to the Principal.

A copy of withdrawal requests will be placed in the pupil's educational record. The Principal will discuss the request with parents and take appropriate action.

Alternative work will be given to pupils who are withdrawn from sex education.

11. Training

Staff delivering RSHE are trained on the delivery of RSHE as part of their induction and it is included in our continuing professional development calendar.

12. Monitoring arrangements

The delivery of RSHE is monitored by the Wellness Lead just like any other subject through the usual academy monitoring systems.

Pupils' development in RSHE is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed by the Wellness Lead annually.

By the end of secondary school pupils should know

This guidance is adapted from the Statutory guidance on [Relationships education, relationships and sex education \(RSE\) and health education](#) and has been mapped against the 6 core components of the Wellness curriculum.

TOPIC	PUPILS SHOULD KNOW
Physical Wellness	<p><u>EXERCISE AND FRESH AIR</u></p> <ul style="list-style-type: none"> Pupils understand: the characteristics and mental and physical benefits of an active lifestyle The positive associations between physical activity and promotion of mental wellbeing, including as an approach to combat stress. The characteristics and evidence of what constitutes a healthy lifestyle, maintaining a healthy weight, including the links between an inactive lifestyle and ill health, including cancer and cardiovascular ill-health. About the science relating to blood, organ and stem cell donation. <p><u>HEALTHY DIET</u></p> <ul style="list-style-type: none"> How to maintain healthy eating and the links between a poor diet and health risks, including tooth decay and cancer. <p><u>AVOIDING UNHEALTHY HABITS</u></p> <ul style="list-style-type: none"> The facts about legal and illegal drugs and their associated risks, including the link between drug use, and the associated risks, including the link to serious mental health conditions. The law relating to the supply and possession of illegal substances. The physical and psychological risks associated with alcohol consumption and what constitutes low risk alcohol consumption in adulthood. The physical and psychological consequences of addiction, including alcohol dependency. Awareness of the dangers of drugs which are prescribed but still present serious health risks. The facts about the harms from smoking tobacco (particularly the link to lung cancer), the benefits of quitting and how to access support to do so. <p><u>SELF CARE</u></p> <ul style="list-style-type: none"> About personal hygiene, germs including bacteria, viruses, how they are spread, treatment and prevention of infection, and about antibiotics. About dental health and the benefits of good oral hygiene and dental flossing, including healthy eating and regular check-ups at the dentist. (Late secondary) the benefits of regular self-examination and screening. The facts and science relating to immunisation and vaccination. The importance of sufficient good quality sleep for good health and how a lack of sleep can affect weight, mood and ability to learn. Understanding changing bodies The main changes which take place in males and females, and the implications for emotional and physical health.
Emotional Wellness	<p><u>HEALTHY MIND</u></p> <ul style="list-style-type: none"> How to talk about their emotions accurately and sensitively, using appropriate vocabulary. That happiness is linked to being connected to others How to recognise the early signs of mental wellbeing concerns. Common types of mental ill health (e.g. anxiety and depression). How to critically evaluate when something they do or are involved in has a positive or negative effect on their own or others' mental health. The benefits and importance of physical exercise, time outdoors, community participation and voluntary and service-based activities on mental wellbeing and happiness. <p><u>Feeling safe</u></p> <ul style="list-style-type: none"> The concepts of, and laws relating to, sexual consent, sexual exploitation, abuse, grooming, coercion, harassment, rape, domestic abuse, forced

	<p>marriage, honour-based violence and FGM, and how these can affect current and future relationships.</p> <ul style="list-style-type: none"> How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online). <p><u>Being free from prejudice and discrimination - ONLINE</u></p> <ul style="list-style-type: none"> Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online. About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online. Not to provide material to others that they would not want shared further and not to share personal material which is sent to them. What to do and where to get support to report material or manage issues online. the impact of viewing harmful content. That specifically sexually explicit material e.g. pornography presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners. That sharing and viewing indecent images of children (including those created by children) is a criminal offence which carries severe penalties including jail. How information and data is generated, collected, shared and used online. <p><u>Internet safety and harms</u></p> <ul style="list-style-type: none"> How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours. Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online. About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online. Not to provide material to others that they would not want shared further and not to share personal material which is sent to them.
