

Thursday 8th February 2024

Dear Parents and Carers,

During the Summer term, the children will be learning about life cycles, pets, farm animals and wild animals.

As part of our learning, we are hoping to hatch either ducklings or chicks in the classroom. We were fortunate enough to do this last year and the children were filled with awe and wonder, as well as learning so much by observing and caring for the ducklings.

To be able to repeat this opportunity, we are asking parents to make a contribution of £5 towards the rental of the equipment, including an egg incubator, a run, bedding and food. Participating in the scheme also means that the ducks or chickens will be rehomed after they graduate from our Reception classes!

Please visit your ParentMail account to make your £5 contribution. Once logged in, you can find this in Payments - Shop.

Here are some of the photos from last year:

Many thanks for your support with this project.

Kind regards,

The Reception Team
