#### **Sense of Accomplishment Assemblies**

This week our celebration assemblies were a resounding success! It was truly inspiring to see their hard work and dedication paying off. This term we issued 583 certificates to acknowledge students' achievements. We are so proud of each and every one of them and cannot wait to continue celebrating their successes throughout the school year. Thank you to all the parents and staff who have supported our students along the way. Here's to many more achievements and celebrations in the future!

#### **REPEAT MESSAGES / REMINDERS:**

##### **Year 9 Options**

Our year 9 Options process is drawing to a close and all students and their families are hopefully feeling well informed and ready to make their choices. We now require all families to sit with their child to complete their final choices and select the subject they wish to study at KS4. If you or your child would like to remind themselves of any information, it can be found on our [website](#).

## Art of the Week

## Year 7 - Computing

In Computing in Year 7 this unit, the students have been developing their Computer Aided Design skills using a program called Tinkercad. We have been learning how complex models may be created from simpler shapes and how the model files may then be recreated with different tools and programs. We look forward to printing our models using our 3D printers and exploring a virtual gallery with our VR headsets.
