Home Learning Passport

Year 2: Summer 2

Self Worth **Engagement** **Purpose**

Power Skill Focus: Critical Thinking and Problem Solving

Each term, your child will be required to complete **one** task from the Home Learning Passport. These tasks are designed to support and reinforce the learning happening in the classroom, giving pupils a chance to explore and apply what they've learned at home in a fun and creative way.

Please complete <u>one</u> task and return to your class teacher by:	**Monday 6th July 2026**
<u>Task 1: Interview</u> Interview a family member about their favourite childhood games! You can interview a parent, grandparent, or another older family member about the games they played when they were your age. Ask questions like: What was your favorite game? How did you play it? How is it different from the games we play today?	
<u>Task 2: Story Book Detective</u> Choose a favorite storybook or a new book you haven't read yet. As you read, pay close attention to the characters, setting, and main events. After reading, draw a picture of your favourite scene and write a few sentences describing what is happening in that scene. Be sure to include a variety of sentences (compound, complex, exclamation, noun phrase).	
<u>Task 3: Find the Object</u> Practise using your mathematical vocabulary to describe position, direction, and movement by asking a grown-up to hide a small toy or object somewhere in the room. Close your eyes. Then, ask your grown-up to give you clues using position and direction words like: • Left/right • Above/below • Between • Forwards/backwards
